GS WORKSHOPS

JACKET/PONCHO—4 DAY WORKSHOP

Gorgeous, comfortable, perfect hooded, seamless garment with a great fit. This workshop provides an alternative way of making a resist and a layout for a one-piece garment with sleeves, hood, nice shoulder line and comfortable fit. The roomy garment that takes up a relatively small space for its creation. We will be combining different unique layout types in one garment, in order to come up with an ideally desirable shape and fit. We will also be exploring various surface design techniques and learn to create sturdy, light and slightly stretchy felt fabric perfect for fine garment making. Only suitable intermediate or advanced felters.
