

MARY HETTMANSPERGER

RIB CONSTRUCTION BASKETRY

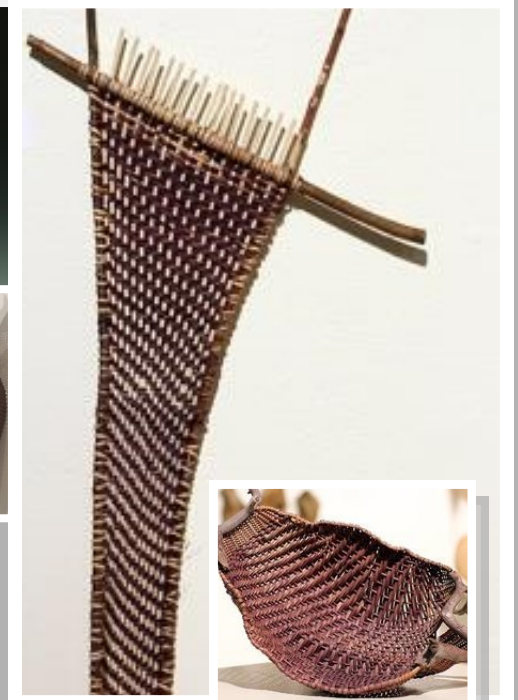

Students will learn to approach rib sculptures and basketry in a totally untraditional way. Mary will show how to create and shape, multiple walls, intersections, turns, twists, lumps and bumps while designing a freeform woven piece. The focus of the workshop will be to create sculptural baskets and weavings in a creative

manor. Mary will also show how to weave a rib construction and freeform weavings using a variety of patterns including twill weave. Students are encouraged to gather driftwood, vines, Twigs, branches, round reed or willow and bring these items that will inspire them and be used as their frame. #4 round reed will be used for the ribs and fine cane will be used for the weavers. Students will learn a variety of tricks to make this form of basketry easy, spontaneous and impressive with endless in possibilities.

Weaving materials are supplied. Mary's Link... <http://www.maryhetts.com/>
